"Gross Floor Area" means the total area of all floors of a building with a floor to ceiling height of 1.5 m or greater, measured to the extreme outer limits of the building, the centre of party walls, or support posts where applicable, and includes attached garages, carports, and stairwells.

"Health Club and Fitness Centre" – means a facility used for the development of physical health and wellness either with or without instruction or coaching.

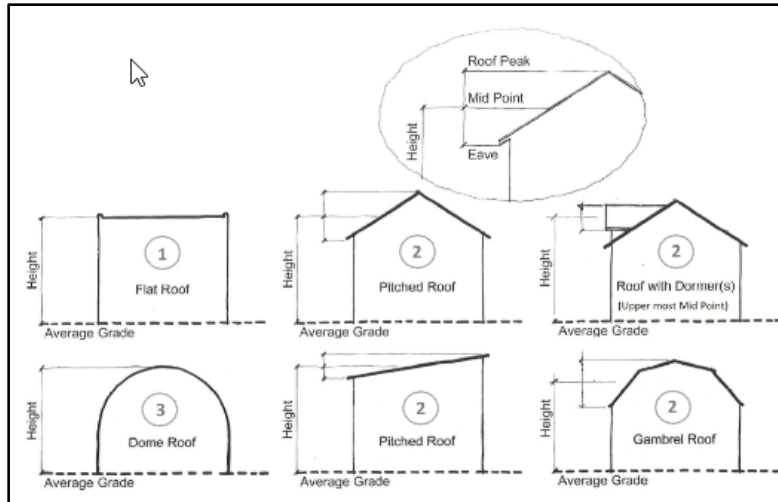

"Height" means the vertical distance from the natural grade at the perimeter of a building or structure to:

- the highest point of the roof surface of a flat roof having a roof pitch of 1:12 or less;
- the highest average level between the eaves and ridge of a sloping roof; and
- the highest point of all other structures.

The measurement of height shall exclude the projection of the following above the surrounding roofline:

- chimneys, spires, aerials, flagpoles, vents and stacks;
- roof-mounted solar energy collection equipment including solar panels and solar water heating systems; and
- heating, ventilation, and air conditioning equipment, stairwells and guard rails, and elevator-lifting devices for other than Residential Single Family, Residential Two Family and Residential Attached uses and accessory uses thereto.

Information Note: *The following graphic provides examples of how height is calculated for various roof forms:*

"Highway" includes a street, road, lane, bridge, viaduct, and any other way open to public use, but does not include a private easement over private property.

2 APPLICATION OF OTHER STATUTES

Definitions in the *Local Government Act*, *Land Title Act*, and the *Interpretation Act* are also applicable in the interpretation of this Bylaw.

3 INFORMATION NOTES

Where a paragraph, sentence, or graphic in this Bylaw is written in italics and is preceded by the words "Information Notes", the contents of the paragraph, sentence, or graphic are provided only to assist in the understanding of the Bylaw and do not form a part of it.

4 DIVISIONS

The divisions of this Bylaw are referred to in accordance with the "Interpretation Act" as follows:

Part 1	Part
1.2	Section
1.2.3	Subsection
1.2.3(4)	Paragraph
1.2.3(4)(a)	Subparagraph
1.2.3(4)(a) (i)	Clause

5 ABBREVIATIONS OF WORDS AND PHRASES

The abbreviations of words and phrases in this Bylaw shall mean:

m	metre(s)
mm	millimetre(s)
m ²	square metres
ha	hectare
max	maximum
min	minimum
n/a	not applicable

6 TERMS USED

In this Bylaw:

- 1 Unless the context specifies otherwise, reference to the singular includes a reference to the plural, and vice versa.

- 2 Unless the context specifies otherwise, references to a gender or gender-specific pronoun shall include all genders or gender-neutral pronouns,
- 3 Headings have been inserted for ease of reference only and do not form part of this Bylaw.
- 4 If a word or expression is defined in this Bylaw, other parts of speech and grammatical forms of the same word or expression have corresponding meanings.
- 5 Reference to any enactment includes any regulations, orders or directives made under the authority of that enactment; and to that enactment as consolidated, revised, amended, re-enacted or replaced, unless otherwise expressly provided.
- 6 Where the word “including” is followed by a list, the contents of the list are not intended to circumscribe the generality of the expression preceding the word “including”.
- 7 Unless the context specifies otherwise, references to “building” shall include other structures intended for the same, or similar land use category.

PART 2 ADMINISTRATION

1 APPLICATION

- 1 This Bylaw applies to the entire geographical area of the Municipality and to all land including the surface of water, airspace, buildings and structures in that area, but does not include First Nations Lands as identified on Schedule 1, Zoning Map.
- 2 Nothing contained in this Bylaw shall relieve any person from the responsibility to seek out and comply with other legislation applicable to their undertaking.

2 INSPECTION

In accordance with the Community Charter, the Bylaw Enforcement Officer, Building Inspector, Municipal Engineer, Approving Officer and the Director of Planning and Building Services are hereby authorized to enter, at all reasonable times, upon any property subject to this Bylaw to ascertain whether this Bylaw is being observed, provided that reasonable steps have been taken to advise the owner or occupier before entering the property.

3 DIRECT ENFORCEMENT

- 1 Whenever a person is directed by this Bylaw to carry out a matter or thing, on default by that person, the matter or thing may be done at the expense of the person in default, and the Municipality may recover the expense, with interest at the same rate as is used for default taxes, in the same manner as municipal taxes.
- 2 Before acting on default of the person, the Municipality shall give 30 days' written notice to the person, by double registered mail, of intent to enforce under this section, and invite the person to attend before Council.

4 VIOLATIONS

Every person who violates any of the provisions of this Bylaw, or who suffers or permits any act or thing to be done in contravention of this Bylaw, or who neglects to do or refrains from doing any act or thing, which is required by any of the provisions of this Bylaw, commits an offence.

5 PENALTY

Every person who commits an offence under this Bylaw shall, upon conviction, be liable for a fine in the maximum amount of \$10,000 and the costs of prosecution.

6 SEVERABILITY

If any section, subsection, sentence, clause or phrase of this Bylaw is for any reason held to be invalid by the decision of any court, it shall be severed from this Bylaw without affecting the validity of the remaining portions of this Bylaw.

PART 3 PROHIBITIONS

1 PERMITTED USES

- 1 Land including the surface of water, airspace, buildings and structures in any zone shall be used only for the uses specifically permitted in the applicable zoning provisions of this Bylaw.
- 2 With the exception of areas for display, loading, parking and outdoor storage uses, all operations and processes associated with a permitted use shall occur within a building or structure designed and intended for such use, unless the permitted use is otherwise defined to principally occur outdoors. This does not prohibit the outdoor use of land accessory to the principal use.

2 PROHIBITED USES

- 1 Drive-through Services are prohibited in all zones.
- 2 Cannabis Retail is prohibited in all zones unless specifically authorized through a Temporary Use Permit and provincially licensed under the Cannabis Control and Licensing Act, or by a zoning amendment to approve Cannabis Retail as a permitted use.
- 3 Short-term vacation rental to the travelling public is only permitted in those zones that specifically include Travel Accommodation, Condominium Hotel, or Bed and Breakfast as a permitted use.
- 4 No person shall park a commercial vehicle having a gross vehicle weight in excess of 5,500 kilograms, or a length in excess of seven meters, or a height in excess of 2.4 meters, on a property within the General Residential Zones (R or RCH), or Multi-Unit Residential Zones (RM or RP).
- 5 The siting, erection or moving of a mobile or modular home into the municipality, or from one lot to another within the Municipality, shall be prohibited except in the Rural Estate, Industrial and Agriculture zones.

3 PERMITTED NUMBER OF BUILDINGS

No lot shall have constructed or placed upon it more buildings or structures of any kind than are specified in this Bylaw for the zone in which it is located.

4 SITING, SIZE AND DIMENSIONS OF BUILDING AND STRUCTURES

No building or structure shall be constructed, reconstructed, placed, erected, altered, moved or extended and no sign shall be erected so as to contravene the requirements of this Bylaw.

5 OFF-STREET PARKING AND LOADING

No land including the surface of water, airspace, building or structure shall be used for any use unless the off-street parking and off-street loading requirements for that use have been provided in accordance with this Bylaw.

6 SCREENING

No land including the surface of water, airspace, building or structure shall be used for any use unless the screening requirements for that use set out in Part 6 have been complied with and the fencing or landscaping is being maintained so as to provide an effective visual screen.

7 DEVELOPMENT OF LAND AND NON-CONFORMING LOTS

- 1 No land shall be subdivided or developed, except in compliance with the provisions of this Bylaw.
- 2 Where a lot that is zoned under this Bylaw to permit residential or agricultural uses existed prior to June 28, 1999 (the enactment of Bylaw 1309) and the lot does not conform to the area or frontage provisions of this Bylaw, such lot may be developed in accordance with the following regulations:
 - (1) all existing lots less than 660 m² in area may be developed only in accordance with the provisions of the R-1S Zone.
 - (2) all existing lots equal to or greater than 660 m² but less than 1560m² in area may be developed only in accordance with the provisions of the R-1 Zone.
 - (3) all existing lots equal to or greater than 1560 m² (16,800 sq. ft.) in area may be developed either in accordance with the provisions of the Zone in which it is located, or in accordance with the provisions and requirements of the RE-4 zone, except that the lot may not be further subdivided according to the provisions and requirements of the RE-4 zone.

PART 4 GENERAL REGULATIONS

1 USES PERMITTED IN ALL ZONES

- 1 Land in every zone may be used for the installation and operation of underground water supply, sewage collection, drainage, gas distribution works, geothermal heating and cooling systems, parks, playgrounds and playing fields, hiking and bicycling paths, horse riding trails and ecological reserves, District fire hall or District fire training centre, and underground and above-ground telecommunication lines, including on any lot not more than one above-ground building with a height not exceeding 3.5 metres and a floor area not exceeding 50 m².

2 NUMBER OF PRINCIPAL BUILDINGS

- 1 Not more than one principal building shall be located on any lot in an R or RE zone.
- 2 Despite the above, in the Agriculture and Rural Estate , zones, whenever an owner makes application for a building permit to replace a dwelling unit on a lot which contains the maximum number of permitted dwellings, and the owner wishes to retain the dwelling for the sole purpose of occupying the existing dwelling during the construction of the new dwelling, it shall be lawful for the building permit to be issued so long as the owner:
- 3 Grants to the Municipality a covenant under s.219 of the Land Title Act in a form satisfactory to the Municipality by which the owner:
 - (1) covenants to demolish, remove or alter the existing dwelling to a comply with this bylaw in the manner set out in the covenant, forthwith upon completion of the new dwelling or upon the request of the municipality, whichever is earlier;
 - (2) authorizes the Municipality to enter the lands and cause the demolition, removal or alteration if for any reason the owner neglects or refuses to do so within 30 days of being requested to do so, and agrees to indemnify the municipality for all costs incurred in so doing;
 - (3) acknowledges that the Municipality may withhold an occupancy permit for the new dwelling until the existing dwelling has been demolished, removed or altered in accordance with the covenant; and
 - (4) Provides, in a form satisfactory to the Municipality, security to meet the reasonably anticipated costs of demolition, removal or alteration of the existing dwelling in the event that the Municipality causes that dwelling to be demolished, removed or altered.

3 ACCESSORY BUILDINGS, STRUCTURES AND USES

- 1 In non-Agricultural zones, buildings and structures accessory to a permitted building or

structure and uses accessory to a permitted use of a lot are permitted, unless otherwise specified, provided that:

- (1) the principal use is being performed on the lot;
- (2) a building for the purpose of the principal use has been constructed on the lot; or
- (3) a building for the purpose of the principal use is in the process of being constructed on the lot.

- 2 In Agricultural zones, accessory buildings shall be permitted on the lot prior to the performance of the principal use and prior to the construction of the building for the purpose of the principal use.
- 3 No accessory building may be used or constructed so as to be capable of being used for human habitation, and without limiting the generality of that restriction no accessory building may contain sleeping accommodation, be equipped or constructed so as to be capable of being equipped for household activities related to the storage, preparation and consumption of food, or be equipped or constructed so as to be capable of being equipped with a bathtub or shower, except where detached accessory dwelling units are permitted in the bylaw and they are constructed in accordance with this Bylaw, the BC Building Code and any other applicable District regulations.
- 4 In the W-1 and W-2 zones, geothermal heating and cooling systems shall be permitted as an accessory use to a permitted use on an adjacent upland lot.
- 5 Unless a building or structure is attached to a principal building by a completely enclosed structure having walls, roof and floor, it is for the purpose of this Bylaw deemed not to be part of the principal building, but is deemed to be an accessory building or structure.

4 OUTDOOR STORAGE USES

- 1 No lot shall be used for the storage of vehicles or as an automobile wrecking or salvage yard, unless explicitly permitted in the Bylaw.
- 2 No front or side yard shall be used for outdoor storage, whether as an accessory or principal use, or for the storage of a boat.
- 3 No lot in any residential zone shall be used for outdoor storage as a principal use.
- 4 In the case of Residential Single Family and Residential Two Family uses, an unlicensed vehicle shall not be parked or stored in the required Front Yard of a lot.

5 COMPOSTING USES

- 1 Composting is not permitted in any zone, except in accordance with this Section.
- 2 Backyard composting is permitted as an accessory use in every zone in which residential

uses are permitted, but compost may not be sold from the premises and the production of compost is not a permitted home occupation.

- 3 Agricultural composting is permitted as an accessory use in the A1 zone, subject to the following regulations:
 - (1) Processing of composting material, including material undergoing initial decomposition and material undergoing secondary curing before being applied to land, must not occur within 30 meters of any parcel boundary or domestic water supply intake, nor within 15 meters of any natural watercourse or constructed ditch, but nothing in this Paragraph prohibits the application of finished compost to land. In the case of a farm business comprising more than one parcel of land, the siting requirements of this Paragraph in relation to parcel boundaries do not apply in relation to any parcel boundary not constituting an exterior boundary of the farm.
 - (2) Compost prepared in the agricultural zone must be applied to land that is included in the same farm business as the land on which the composting occurs, and may not be sold or removed from that premises on which it is produced, but nothing in this Paragraph prohibits the sale of bagged manure from farm roadside stands.
 - (3) Initial decomposition of food waste, sludge, septage, fats, oils and grease, brewery waste, plant matter derived from processing plants, hatchery waste, poultry carcasses, fish wastes, whey, milk processing waste and contaminated fibers must be contained in a closed reactor or vessel in which conditions such as moisture, temperature and oxygen levels can be closely monitored and controlled, and from which odors detectable by humans cannot escape.
 - (4) Materials referred to in Paragraph 4.5.3(3) undergoing secondary curing or being stored prior to initial decomposition must be stored on an impermeable surface and any leachate must be collected, so that contaminants leaching from the materials cannot enter the groundwater table.
- 4 Commercial composting is permitted as a principal use in the I-1 and I-2 zones, subject to the following regulations:
 - (1) Composting materials undergoing initial decomposition must be contained in a closed reactor or vessel in which conditions such as moisture, temperature and oxygen levels can be closely monitored and controlled, and from which odors detectable by humans cannot escape.
 - (2) Composting materials undergoing secondary curing or being stored prior to initial decomposition must be stored on an impermeable surface and any leachate must be collected, so that contaminants leaching from the materials cannot enter the groundwater table.
 - (3) Processing equipment may be operated only between the hours of 8 a.m. and 5 p.m. Monday to Saturday, excluding statutory holidays.

- (4) Equipment for the shredding or grinding of materials must be located within a structure having solid walls and a roof so that any noise generated by the equipment is attenuated.
- 5 Every composting operation permitted by this Bylaw must comply with the Organic Matter Recycling Regulation under the Waste Management Act and any Bylaw of the Capital Regional District dealing with the operation of composting facilities.
- 6 Nothing in Section 4.5 of this Bylaw restricts the nature of compost or other materials that may be applied to land in the Agricultural Land Reserve as a soil conditioner.

6 ADDITIONAL SETBACKS

- 1 All buildings and structures for housing or enclosing livestock and all buildings, structures and areas used for the storage of manure shall be a minimum of 30.0 m from any lot line adjoining a residential zone.
- 2 Where a building for a residential occupancy is proposed to be constructed on a lot directly abutting a parcel designated as Agricultural Land Reserve, the minimum yard requirements specified in the applicable zoning provisions are increased by 5 metres to maintain a physical buffer between the residential use and the agricultural uses which may occur.
- 3 On a lot adjacent to or containing a watercourse, no person shall construct or place or erect a building or structure other than a fence or place fill material on the bed of the watercourse, nor on any portion of the lot that is within 15 metres measured horizontally from the natural boundary of the watercourse nor within 10 metres measured horizontally from the top of the bank of the watercourse. For the purposes of this Subsection, the top of the bank is the point nearest the natural boundary of the watercourse where a break in the slope of the land occurs such that the grade inland of the break is less than 3:1 for a minimum distance of 15 metres measured perpendicularly to the watercourse as shown in Figure 1.

Figure 1: Watercourse Setback Requirement

- 4 No person shall construct, erect or place a building or structure other than: fences; docks, ramps and walkways; stairs; or, geothermal heating and cooling systems; within 10 metres measured horizontally inland from the natural boundary of the sea nor within 10 metres measured horizontally inland from the top of a slope of 3:1 or more adjacent to the sea.
- 5 No person shall construct or erect a building or structure for housing animals other than pets, or construct, erect or use any building, structure or area for the storage of manure, within 30 metres measured horizontally inland from the natural boundary of any watercourse or the sea.
- 6 For the purposes of Subsections 4.6.3 and 4.6.5 paved driveways and motor vehicle parking areas are "structures".

7 FENCES

- 1 No fence shall exceed 1.3 metres in height except:
 - (1) in an A, C, P or I zone where the height of a fence, in any part of the lot between the front yard setback line and the rear lot line, shall not exceed 2.5 metres;
 - (2) in a R zone where the height of a fence, in any part of the lot between the front yard setback line and the rear lot line, shall not exceed 1.9 metres; and;
 - (3) in the case of a corner lot in an R or P zone, where the height of a fence adjacent to the highway shall not exceed 1.3 metres.
- 2 Despite the above, for panhandle lots the height of fence is limited to 1.3 m for that part of the access strip within 7.5 m of the lot frontage, and shall not exceed 1.9 m in height for other lot lines.
- 3 Despite Subsection 4.7.1, for Residential Apartment and Residential Attached uses in any zone where there are three or more units, and Community Care Facilities in a RP zone where there are six or more beds, the height of a fence in any part of the lot shall not exceed 1.9 metres.
- 4 A Sight Triangle shall not be obstructed by:
 - (1) a fence, wall or structure erected to a height greater than 0.7 metres; or
 - (2) a hedge, bush, shrub, tree or other growth.
- 5 Subsection 4.7.1 shall not apply to an open mesh, netting or wire deer fence erected on any part of a lot in an Agricultural, Rural Estate, or Residential zone for the purpose of crop and garden protection.

8 YARDS

- 1 In residential zones, no radio or television antenna or satellite dish antenna shall be located in a front yard or side yard.
- 2 Where yard setbacks are required by this Bylaw, they shall be free of all buildings and structures except:
 - (1) chimneys, cornices, leaders, gutters, bay windows, a cantilevered section of a building, and ornamental architectural features extending not more than 0.6 metres into any required yard;
 - (2) front and rear unenclosed steps, eaves, awnings, canopies, cantilevered decks or balconies, or open porches extending not more than 0.6 metres into any required yard;
 - (3) mechanical features integrated into the building exterior, including heating or ventilating equipment, extending not more than 0.6 metres into any required

yard;

provided that the total length of all completely enclosed projections from the face of a building described in Paragraphs (1) through (3) above shall not exceed 50% of the total length of the building wall from which they project; and

- (4) exterior cladding and insulation extending not more than 0.3 m into any required yard;
- (5) ramps, or wheelchair lifts, for accessibility purposes are permitted in any yard;
- (6) below grade steps to access basement area extending not more than 1.5 m into any required yard;
- (7) underground utilities, geothermal heating and cooling systems, irrigation systems, storage tanks, underground parking and similar structures constructed entirely beneath the surface of the ground may encroach into required yards provided such underground encroachments do not result in a grade inconsistent with abutting properties and the encroachments are covered by sufficient soil depth or surface treatment to foster landscaping;
- (8) stairwells serving underground parking may be sited within a required setback provided they are less than 1.2 m in height;
- (9) heat pumps not integrated into the building exterior shall:
 - a. not be sited in a front yard,
 - b. be sited no less than 6.0 m from a rear or side lot line without acoustic screening,
 - c. be sited no less than 3.0 m from a rear or side lot line where acoustic screening is provided that would reduce noise levels to 45 decibels or less;and
- (10) fences.

3 Backstops, rebound walls, goals and other similar structures in parks and school grounds shall be permitted in all required yards, except those abutting residentially zoned lots, and any such structure that is constructed so as to form a solid fence or wall which cannot be seen through shall be at least 6 metres from any lot line.

4 Swimming pools:

- (1) Shall not be located in a required front yard or required side yard.
- (2) Above-ground swimming pools and associated decks greater than 0.6 metres in height shall meet the siting requirements of accessory buildings.
- (3) In-ground swimming pools shall be located at a minimum of 1.5 metres from side property lines and 2 metres from rear property lines.

9 COMBINED COMMERCIAL AND RESIDENTIAL USE

Where a lot is used for combined commercial and residential use, the commercial use must be a use that is specifically permitted under the applicable zoning provisions of this bylaw. Where a lot is used for combined commercial and residential use, unless otherwise specified herein, the residential use shall be permitted only in conformity with the following conditions:

- 1 commercial uses shall comprise not less than 10% of the total floor area;
- 2 residential uses shall not be located under commercial uses, nor at ground level within 15 meters of the front lot line;
- 3 a completely separate entrance at ground floor level shall be provided for the dwelling units;
- 4 combined commercial and residential uses must meet the parking, screening, and sign regulations of this bylaw, for each use.

- 1 not accommodate more than eight children when involving child care for pre-school children, and not more than one day care is permitted per residential property;
- 2 not be any activity which will create any vibration, noise, heat, glare, odor or electrical interference which is detectable from outside the premises; nor discharge smoke, fumes or any toxic or other noxious matter into the atmosphere; nor create any bio-medical waste material;
- 3 not have more than two clients or patrons of the home occupation use on the premises at any one time except as provided under Section 10.1;
- 4 be carried out only by a member or members of the family residing in the dwelling unit in which the home occupation is carried out;
- 5 be carried on with no exterior indication of the home occupation as a result of outdoor storage, display, or flood-lighting;
- 6 not use materials or processes that produce flammable or explosive vapors or gases under ordinary temperatures;
- 7 not involve the sale or display of any goods, wares, merchandise or foodstuffs which are not produced or made on the premises, except for two days of the year;
- 8 not involve storage of materials outside the dwelling unit or accessory building, which are used directly for the processing or result from the processing of any product of the

home occupation;

- 9 not require delivery of materials or commodities in such bulk or quantity as to require regular or frequent delivery by commercial vehicles or trailers;
- 10 not generate any increase in on-street vehicle parking attributable to the use of the premises for a home occupation;
- 11 not involve alterations to the dwelling that would change the character of the building as a dwelling except that a dwelling used for a home occupation involving the preparation of food may, despite any other provision of this Bylaw and where required by the Capital Health Region, include a second food preparation facility;
- 12 when sited within a dwelling unit, occupy no more than 25% of the gross floor area of the dwelling, with the exception of day cares;
- 13 when sited within an accessory building, occupy no more than 90 m² of the floor area and sited within a defined space, separated from other accessory uses within the same building by a constructed wall; and,
- 14 not involve cannabis retail in any form.

11 ADDITIONAL DWELLING UNITS

In Agricultural zones, notwithstanding the zoning provisions of this bylaw, more than one single family residential building may be permitted on any one parcel where:

- 1 the agricultural parcel is within the Agricultural Land Reserve, and
- 2 the additional dwelling has been approved by the Agricultural Land Commission, or
- 3 the dwelling meets any specified conditions, regulations or policies under the Agricultural Land Reserve Use Regulation.

12 ACCESSORY DWELLING UNIT

- 1 Where an accessory dwelling unit is permitted in a single family residential zone in this Bylaw, only one accessory dwelling unit is permitted per lot in the form of a secondary suite wholly contained within the principal single family dwelling, or as a Detached Accessory Dwelling unit in accordance with Sections 12 and 13 of this Part.
- 2 Where permitted within the Urban Settlement Area, a Detached Accessory Dwelling is permitted in the form of a one-storey cottage only.
- 3 Where permitted outside of the Urban Settlement Area, a Detached Accessory Dwelling is permitted in the form of a one-storey cottage or two-storey carriage house.
- 4 Accessory Dwelling Units are not permitted within, or on properties containing any

portion of a Residential Two Family building (duplex).

- 5 An Accessory Dwelling Unit in the form of a secondary suite is permitted on lots 400 m² in area or greater.
- 6 A Detached Accessory Dwelling Unit is permitted on lots 500 m² in area or greater.
- 7 An Accessory Dwelling Unit is not permitted on a panhandle lot within the Urban Settlement Area.
- 8 Accessory Dwelling Units shall be occupied for residential purposes only and shall not be rented for an occupancy period less than 30 days.
- 9 An Accessory Dwelling Unit shall not be used as a Bed and Breakfast or short-term vacation rental.
- 10 Secondary service connections from municipal systems to serve a Detached Accessory Dwelling is prohibited.

Information Note: *upgrades to the existing services may be required due to the increased demand, including to private septic systems or potable water supply. Confirmation of adequate services will be required as part of the Building Permit application.*

- 11 Off-street parking for an Accessory Dwelling Unit shall be provided in accordance with this Bylaw.
- 12 Detached Accessory Dwellings shall not include any basement area.
- 13 Where a Detached Accessory Dwelling is permitted and the accessory dwelling unit is sited within a building containing another accessory use, there shall be no internal connection between the accessory use and dwelling unit and each use shall have its' own separate entrance.
- 14 No Accessory Dwelling Unit may be stratified, subdivided, or otherwise legally separated from the principal Residential Single Family dwelling.

Information Note: *An Intensive Residential Development Permit is required prior to issuance of a Building Permit for a Detached Accessory Dwelling located within the Urban Settlement Area.*

- 15 Where permitted, a secondary suite shall:
 - (1) have no exterior building elements which are generally inconsistent with the form and appearance of Residential Single Family buildings in the area;
 - (2) have a maximum floor area of 90 m²; and
 - (3) contain at least two rooms including a bedroom, cooking facility and bathroom.

13 DENSITY BENEFIT

- 1 Where a Detached Accessory Dwelling is permitted in this Bylaw, the density benefit may be permitted provided that prior to issuance of a building permit a covenant is registered on title that would:
 - (1) Require the detached accessory dwelling unit is used to provide rental housing under a tenancy agreement in accordance with the Residential Tenancy Act,
 - (2) Specify that no other accessory dwelling unit is permitted on the property,
 - (3) Prohibit the Detached Accessory Dwelling from being stratified, subdivided, or legally separated from the principal dwelling in any way, and
 - (4) Clarify that residential occupancy may include any property owners, family members, or caregivers, caretakers, or employees serving the property.

14 VETERINARY PRACTICE

- 1 Except where expressly prohibited a Veterinary Practice may include the accessory retail sale of goods. Except in a C-1 or C-3 zone, the gross floor area designated for such retail use, including storage areas for retail goods, shall not exceed the lesser of 60 m² or 15% of the building area.
- 2 Kennels, runs, or wards shall be entirely inside a building and there shall be no provisions for animals to be confined outside the building.

15 CANNABIS PRODUCTION, AGRICULTURE USE

- 1 Any Cannabis production in the Agricultural Land Reserve shall be designed and operated in accordance with Provincial Acts and Regulations in order to be deemed a farm use permitted in the Agricultural Land Reserve. Cannabis production not deemed a farm use by the Agricultural Land Commission is prohibited.

Information Note: *As of July 2018 the Agricultural Land Commission Act designates cannabis production as a farm use if:*

- *It is produced outdoors in a field, or*
- *It is produced inside a structure that has a base consisting entirely of soil or*
- *It is produced inside a structure that was constructed for growing crops, or under construction, before July 13, 2018.*

This information note is provided for convenience only and proponents should review the Agricultural Land Commission regulations, as may be amended from time to time.

- 2 The maximum lot coverage for Cannabis Production Buildings is 35%, irrespective of residential and other agricultural uses.
- 3 The minimum setbacks for any Cannabis Production Building shall be

PART 5 ZONING REGULATIONS

1 ESTABLISHMENT AND EXTENT OF ZONES

- 1 For the purposes of this Bylaw, the area within the boundary of the Municipality is hereby divided into the zones depicted on Schedule 1 attached to and forming part of this Bylaw.
- 2 The extent of each zone is shown on Schedule 1.
- 3 When a zone boundary is designated on Schedule 1 as following a highway or any watercourse, the centre line of such highway or watercourse shall be the zone boundary.
- 4 Where a zone boundary shown on Schedule 1 does not follow a legally defined line and where distances are not specifically indicated, the location of the boundary shall be determined by scaling from Schedule 1.

2 INTERPRETATION OF ZONE REGULATIONS

- 1 Uses of land, buildings and structures listed under the heading "Permitted Uses" in this Part are permitted in the zone in question and all other uses are prohibited in that zone, and where a particular land use is expressly permitted in a zone or zones, such land use is prohibited in all other zones
- 2 Where minimum distances are specified in this Part in respect of front, rear and side yards, buildings and structures must be sited at least that distance from the front, rear and side lot lines respectively. Where total minimum distances are specified in respect of two side yards, the total of the distances of every building or structure from the respective lot lines must equal or exceed the specified total.
- 3 Where maximum heights of buildings and structures are specified for a zone in this Part, no building or structure in that zone may exceed that height.
- 4 Where maximum lot coverage of buildings and structures is specified for a zone in this Part, all buildings and structures on a lot in the zone may not cover a greater proportion of the area of the lot than the proportion specified.
- 5 Where minimum lot area and frontages are specified for a zone in this Part, land in the zone shall not be subdivided so as to create a lot having a lesser area or frontage than that specified, and where a minimum average lot area is specified land shall not be subdivided such that the lots in the subdivision have an average area less than that specified.
- 6 Where a maximum floor area ratio is specified for a zone in this Part, the gross floor area of all buildings and structures on a lot in the zone shall not exceed the product of the specified floor area ratio and the area of the lot.

 - (1) Residential Attached for rental occupancy only
 - (2) Residential Apartment for rental occupancy only
 - (3) Community Care Facility

Siting of Buildings and Structures

- 2 Siting of buildings and structures shall be as follows:
 - (1) Front Yard minimum of 7.5 m
 - (2) Rear Yard minimum of 7.5 m
 - (3) Side Yard Interior minimum of 1.5 m, one side
 - (4) Side Yard Interior minimum of 4.5 m, total two sides
 - (5) Side Yard Exterior minimum of 6.0 m

Size of Buildings and Structures

- 3 The maximum size of buildings and structures shall be as follows:
 - (1) Lot Coverage maximum of 40%
 - (2) Floor Area Ratio maximum of 0.80
 - (3) Building Height maximum of 11.5 m
 - (4) Accessory Height maximum of 4.5 m

Subdivision Requirements

- 4 Requirements for subdivision shall be as follows:
 - (1) Minimum and Average Lot Area minimum of 0.4 ha
 - (2) Lot Frontage minimum of 26 m

57 WATER AREA: W-1

Permitted Uses

- 1 Permitted Uses The following uses are permitted as principal uses of the land:
 - (1) Dredging operations
 - (2) Private walkways
 - (3) Public wharves, piers, walkways or floats
 - (4) Public utility structures
 - (5) Non-commercial loading and unloading facilities
 - (6) Private Float Facilities
 - (7) Geothermal heating and cooling systems serving the adjacent upland property

Siting of Buildings and Structures

- 2 Siting of buildings and structures shall be as follows:
 - (1) No structure, float, or walkway shall be constructed or placed so as to impede free pedestrian access along the waterfront.
 - (2) No boat house, shed or shelter shall be erected within a W-1 zone.

Size of Buildings and Structures

- 3 The maximum size of buildings and structures shall be as follows:
 - (1) Height maximum of 4.5 m
 - (2) Accessory Building maximum of 60 m² gross floor area
 - (3) No private float or walkway may be over 30 m in length or 3 m in width.

Information Note: *The installation of any structures below the natural boundary of the sea are required to obtain the necessary permits or approvals from provincial and federal agencies*

58 WATER AREA BOAT HOUSE ZONE: W-1BH

Permitted Uses

- 1 The following uses are permitted as principal uses of the land:
 - (1) Private wharves, piers, walkways or floats
 - (2) Boat house

Siting of Buildings and Structures

- 2 Siting of buildings and structures shall be as follows:
 - (1) No structure, float, or walkway shall be constructed or placed so as to impede free pedestrian access along the waterfront.

Size of Buildings and Structures

- 3 The maximum size of buildings and structures shall be as follows:
 - (1) No boat house shall exceed 130m² gross floor area.
 - (2) No private float or walkway shall be over 30 m in length or 3 m in width.
 - (3) Height a maximum of 6.4 m above any structure on which the building or structure is constructed.

Information Note: *The installation of any structures below the natural boundary of the sea are required to obtain the necessary permits or approvals from provincial and federal agencies*

59 WATER AREA: W-2

Permitted Uses

- 1 The following uses are permitted as principal uses of the land:
 - (1) Boat building
 - (2) Boat rental, sporting equipment rentals and sales
 - (3) Commercial moorage, loading and unloading facilities
 - (4) Dredging operations
 - (5) Ferry and water taxi wharves, docks, floats and terminals
 - (6) Fish packing, and processing
 - (7) Fish guide service
 - (8) Floats, wharves, piers and walkways
 - (9) Geothermal heating and cooling systems serving the adjacent upland property
 - (10) Marine fuel installations, including aircraft refueling
 - (11) Marinas and Yacht Clubs, in accordance with Part 4, Section 16
 - (12) Minor warehousing
 - (13) Public utility structures
 - (14) Ship repair
 - (15) Transient moorage
 - (16) Caretaker's dwelling

Siting of Buildings and Structures

- 2 Siting of buildings and structures shall be as follows:
 - (1) All floats and structures except geothermal heating and cooling systems shall be set back 6.0 m from the marine boundary of any water lot or foreshore lease.
 - (2) No structure, float, or walkway shall be constructed or placed so as to impede free pedestrian access along the waterfront.

Information Note: *The installation of any structures below the natural boundary of the sea are required to obtain the necessary permits or approvals from provincial and federal agencies*

60 WATER AREA ZONE: W-2A

Permitted Uses

- 1 The following uses are permitted as principal uses of the land:
 - (1) Commercial moorage
 - (2) Docks and floats
 - (3) Ferry and water taxi wharves
 - (4) Fish guide service
 - (5) Floats, wharves, piers and walkways
 - (6) Loading and unloading facilities
 - (7) Public utility structures
 - (8) Transient moorage

Siting of Buildings and Structures

- 2 Siting of Buildings and Structures shall be as follows:
 - (1) No structure, float, or walkway shall be constructed or placed so as to impede free pedestrian access along the waterfront.
 - (2) Except on the upland boundary, all floats and structures shall be set back 2.0 m from the boundary of any water lot or foreshore lease.

Size of Buildings and Structures

- 3 The maximum size of buildings and structures shall be as follows:
 - (1) No private float or walkway shall be over 65 m in length or 4 m in width.

Information Note: *The installation of any structures below the natural boundary of the sea are required to obtain the necessary permits or approvals from provincial and federal agencies*

PART 6 OFF-STREET PARKING, LOADING AND SCREENING REGULATIONS

1 PROVISION OF OFF-STREET PARKING

Subject to Section 6.2, every owner of land shall provide and maintain off-street motor vehicle parking spaces on the same site as the development, building or use they are intended to serve, in accordance with the regulations in this Part.

2 OFF-STREET PARKING FOR NEW AND EXISTING BUILDINGS, STRUCTURES AND USES

- 1 For new buildings, structures or uses, off-street parking shall be required in accordance with the regulations in this Part, including EV requirements.
- 2 For additions to existing building or structures, or for changes or additions to an existing use, the number of required parking spaces shall be determined by applying the regulations in Section 6.5 to those changes or additions, excluding EV requirements.
- 3 For changes in use which conforms to the uses permitted in a zone, the required parking spaces shall be determined by applying the regulations in Section 6.5, Table 2 to those changes.
- 4 In the case of a use not specifically mentioned, the number of required off-street parking spaces shall be the same as that for the most similar use.
- 5 Where the calculation of required spaces, energized parking, or EVSE units results in a fractional number, calculations shall be rounded to the nearest integer.
- 6 Where off-street parking spaces in excess of bylaw requirements are provided, their location, design and operation shall comply with the requirements of this Bylaw.

3 USE OF PARKING FACILITIES

- 1 All off-street parking spaces required by this Bylaw shall be used exclusively for the parking of motor vehicles of clients, customers, employees, members, residents, tenants, or visitors who make use of the principal building or use for which the parking area is provided, and such parking area shall not be used for off-street loading, driveways, access or egress, commercial repair work, display, sale or storage of goods of any kind.
- 2 Except for Residential Single Family and Residential Two Family, off-street parking spaces may be provided and used collectively by two or more buildings or uses on the same site, provided that the total number of parking spaces when used together is not less than the sum of the requirements for the various individual uses, and that such parking facilities shall not be located more than 150m from any building or use to be served.

- 3 Despite Section 6.1, where all required parking spaces for non-residential uses cannot be located on the same site as the building, structure or use for which they are required, parking spaces may be provided on land other than that in respect of which the spaces are required, provided that:
 - (1) the parking site is located within 150m of the site where the building, structure or use requiring provision of parking is located or carried on;
 - (2) excess parking spaces exist at the parking site and granting a parking easement would not create a parking shortfall for uses occurring on the site, and
 - (3) an easement or restrictive covenant in favor of the municipality is registered against the title of the parking site, requiring that it be used to provide the required number of parking spaces for the building, structure or use which requires the parking.
- 4 Despite Subsection 6.3.2, where it can be ascertained by the Director of Planning and Building Services that the peak parking demand for two or more non-residential buildings, structures or uses on the same site or abutting sites occurs at different periods of time, the parking requirements for those buildings or uses may be reduced by a maximum of 25% of the total parking requirement, provided that an easement or restrictive covenant in favor of the municipality is registered against the titles of the subject properties, setting out the shared parking arrangement and requiring the provision of the required number of parking spaces for the buildings, structures or uses which require the parking.

4 DEVELOPMENT AND MAINTENANCE STANDARDS FOR OFF-STREET PARKING

Design of parking areas and access

- 1 Off-street parking areas shall be:
 - (1) developed as an integral part of an overall site plan; and
 - (2) arranged to ensure the safe and convenient circulation of vehicles to and from the public road system.
- 2 Except for those provided in respect of Residential Single Family and Residential Two Family uses, off-street parking areas shall be:
 - (1) accessed by a driveway from the public road system no less than 3.5 m wide where used for one-way traffic and no less than 6.0 m wide where used for two-way vehicular traffic; and,
 - (2) arranged so as not to require the backing out of vehicles onto a public road.
- 3 Off-street parking areas for Residential Single Family, Residential Two Family, and Accessory Dwelling Unit uses shall be accessed by no more than two driveways from a public road with a maximum total combined driveway crossing width at property line of 7m, except for a corner lot which may be accessed by no more than one driveway from each of the fronting and flanking streets, with maximum driveway crossing widths at property line of 7m and 3m, respectively.
- 4 Except for Residential Single Family, Residential Two Family, and Accessory Dwelling

Unit uses, adequate provision shall be made for individual access to or from all parking spaces at all times by means of unobstructed maneuvering aisles provided as follows:

<i>Parking Angle</i>	<i>Width of Maneuvering Aisle</i>
90 degrees	7.5 m
60 degrees	5.5 m
45 degrees and less	4.0 m

- 5 Parking spaces may be arranged one behind the other with a common or shared point of access to a street or maneuvering aisle, only if both spaces are provided in respect of a Residential Single Family use.

Surfacing, marking and lighting

- 6 Off-street parking areas and their related driveways and maneuvering aisles shall be:
 - (1) Except as note in paragraph 6.4.6(3), surfaced with asphalt, concrete or similar pavement, pavers, gravel or similar permeable material so as to provide a durable surface. When a surface such as gravel or similar permeable material is provided, measures shall be implemented to ensure that dust is effectively controlled;
 - (2) graded and drained to dispose of surface water and to eliminate sheet flow of drainage water onto sidewalks, public rights-of-way or abutting properties; and
 - (3) for accessible parking and aisle surfaces:
 - (a) hard, non-slip surface;
 - (b) a maximum running slope and maximum cross-slope of surface at 1:50 (2%); and,
 - (c) drop curbs (curb ramp) shall be provided to accommodate wheelchair access between parking spaces and entrances to buildings.
- 7 Except for those provided in respect of Residential Single Family, Residential Two Family, and Accessory Dwelling Unit uses, individual parking spaces shall be suitably delineated by painted lines or other means, such as brick pavers, cat eyes, or wheel stops, as appropriate. Entrances and exits shall be clearly marked by curbs or fences, painted lines, or signage.
- 8 Except for those provided in respect of Residential Single Family, Residential Two Family, and Accessory Dwelling Unit uses, all parking areas shall be provided with adequate curbs in order to retain vehicles within the permitted parking areas, and to ensure that fences, walls, hedges, landscaped areas, buildings, sidewalks and public roads and lanes will be protected.
- 9 Lighting used to illuminate off-street parking areas or parking garages shall be so arranged that all direct rays of light are reflected upon the parking areas or garages, and not on any adjoining premises.

Location of stalls

- 10 Off-street parking provided for an Accessory Dwelling Unit shall be:

- (1) provided at grade and not enclosed in a building, except that where a building contains three or more parking spaces, one space may be allocated for an Accessory Dwelling Unit use;
 - (2) specifically allocated for use of the Accessory Dwelling Unit only;
 - (3) located so as to allow for access to and from the parking space at all times by means of an unobstructed driveway; and
 - (4) located to the rear of the front setback line of any Residential Single Family building constructed after October 20, 2003.
- 11 In the case of Residential Attached or Residential Apartment uses, visitor parking spaces must be marked with a sign that clearly identifies their use for visitor parking only.
- 12 In the C, CD, CR, I, P, RM, RP, and W zones, off-street surface parking shall be located no less than 2.5 m from any lot line.
- 13 All parking for commercial buses shall be provided off-street in spaces specifically designed for bus parking only and each space shall be located at least 6m from any property line.

Accessible Parking

- 14 Accessible parking spaces shall be:
- (1) on the same lot as the uses, buildings or structures that the spaces are provided for;
 - (2) located to allow for the shortest possible access route to the main entrance or elevator of the building; and,
 - (3) If multiple accessible entrances are accessible, spaces may be dispersed to enable parking proximity to multiple entrances.
- 15 The following are required to identify accessible parking spaces:
- (1) a sign in compliance with the regulations pursuant to the *Motor Vehicle Act Regulations*, with minimum dimensions of 30cm x 60cm at the end of a parking space (1.5 m or higher) either a post-mounted accessible sign or affixed to the building face;
 - (2) an additional blue sign 30cm x 15cm indicating “Van Accessible” for all Type A accessible spaces, located below the required sign indicated in (15)(1); and,
 - (3) the parking surface shall be painted with the International Symbol of Accessibility.

Information Note - Illustration of MVA Regulations Accessible Parking Signage

Electric Vehicles Parking

- 16 Electric Vehicle Energy Management Systems (EVEMS) Performance Standard requirements, found in Table 1 below, shall be followed. Performance requirements indicate the maximum number of EVSE (Level 2 electric vehicle charging stations) that may be connected to the same circuit, for various circuit ratings. The EVEMS Performance Standard is meant to ensure that a vehicle may be fully recharged 90% of the time during an overnight charging session, based upon average daily driving distances, estimated as 24.1 km per day in Central Saanich.
- 17 For designs where an EVEMS is intended, electrical infrastructure shall include communications equipment, control systems installation, licensing, and permitting required to operate.

Stall dimensions

- 18 Off-street parking spaces and access aisles shall have clear minimum dimensions as follows:

	Width of Space	Length of Space	Height
Standard parking space	2.7 m	5.5 m	2.0 m
Small car parking space	2.4 m	5.0 m	2.0 m
Standard parking space (parallel)	2.6 m	7.3 m	2.0 m
Small car parking space (parallel)	2.4 m	6.7 m	2.0 m
Accessible parking space – Type A	3.7 m	5.5 m	2.3 m
Accessible parking space – Type B	2.7 m	5.5 m	2.3 m
Marked Accessible Aisle	1.5 m	5.5 m	2.3 m

- (1) An accessible aisle of 1.5 m, clearly marked with diagonal markings, must be provided immediately adjacent to each accessible parking space.
 - (2) One accessible aisle may provide access for up to two accessible parking spaces.
- 19 Except for spaces provided in respect of Residential Single Family, Residential Two Family, and Accessory Dwelling Unit uses, where a parking space adjoins a wall, fence or other structure greater than 0.3m in height, the width of the parking space shall be increased by 0.3m for the entire length of the parking space.
- 20 If an off-street parking area contains 31 or more spaces, a maximum of 30% of the spaces provided may be small car parking spaces which shall be clearly marked to identify their use for the parking of small cars only.

Minimum energized spaces: refers to minimum number of parking spaces, expressed as a % of the total or as a whole number, for which energized outlets shall be provided.

Minimum energized electric vehicle supply equipment (EVSE): refers to the minimum number of energized outlets that shall be provided with charging stations (EVSE units) at the time of development, either expressed as a % of the total or as a whole number. Where the number of EVSE specified in the table is greater than the minimum energized parking spaces percentage

requirement, the EVSE requirement will be equivalent to the percentage requirement of minimum energized spaces.

Minimum charging level: refers to the minimum charging level provided at each of the energized parking spaces (L2 = Level 2; L2M = Level 2 with energy management enabled). Where energy management is allowed, the EV Energy Management Systems Performance Standard shall apply. Where L2M is specified, energy management is recommended but optional (i.e., L2 may be used instead).

- 1 The minimum number of accessible parking spaces shall be provided in accordance with the requirements set out in the table below:

Total number of required parking spaces	Accessible parking spaces of the required total parking for residential attached and residential apartment		Accessible parking spaces of the required total parking for all other applicable uses	
	Type A	Type B	Type A	Type B
1 to 9	0	0	1	0
10 to 25	1	0	1	0
26 to 50	1	1	1	1
51 to 75	2	1	2	1
76 to 100	2	1	2	2
For each additional increment of 25 spaces or portion thereof		1 additional space		1 additional space

- 2 For properties developed pursuant to the **Strata Property Act** required accessible parking spaces shall be deemed to be common property.
- 3 If a parking variance is requested as part of a development, the number of required off-street parking before the variance shall be used to calculate the number of accessible parking spaces.
- 4 The following uses do not require an accessible parking space:
 - (1) Facilities that are used exclusively for the storage of vehicles
 - (2) Residential single family
 - (3) Residential two family
 - (4) Secondary suite
 - (5) Cottage or Carriage house
 - (6) Seasonal or temporary uses provided that parking for persons with limited mobility can be accommodated in an appropriate manner on site, to the satisfaction of the Director of Planning and Building Services.

6 PROVISION OF BICYCLE PARKING SPACES

- 1 Bicycle parking spaces shall be provided in accordance with the following:
 - (1) All Commercial, Industrial, Comprehensive Development, and Residential Attached and Residential Apartment uses shall provide short-term bicycle parking in the form of bicycle racks on the basis of 1 space per 10 required vehicular parking spaces;
 - (2) Bicycle racks shall be provided on the same site as the development, building or use for which they are intended, and shall be:
 - (a) located in a convenient, well-lit location within 15m of a principal building entry and be sheltered from rain and weather conditions; and
 - (b) be made of sturdy, theft-resistant material, securely anchored to the ground, floor or wall;
 - (3) Unobstructed access by means of an aisle with a minimum width of 1.2m shall be provided to each bicycle parking space or rack; and,
 - (4) In addition to Paragraph 6.6.1(1), Residential Attached and Residential Apartment uses shall provide on the basis of 1.5 bicycles parking spaces per Dwelling Unit, secured, covered, long-term bicycle parking on-site in the form of:
 - (a) bicycle lockers constructed of solid, opaque, weatherproof and theft-resistant material with lockable doors which open to the full height and width of each locker, are grouped together, and each with minimum dimension of 2m long, 1.5m high and 1m wide; or
 - (b) bicycle rooms complete with bicycle racks, where the bicycle rooms provide a lockable door and lighting.
 - (5) In addition to section 44(1)(d), all Residential Attached and Residential Apartment uses must include at minimum one energized Level 1 outlet (120 V) with every two long-term bicycle parking spaces.

7 PROVISION OF OFF-STREET LOADING FACILITIES

Subject to Section 6.8, every owner of land shall provide and maintain off-street loading spaces on the same site as the development, building or use they are intended to serve, in accordance with the regulations in this Bylaw.

8 OFF-STREET LOADING FOR NEW AND EXISTING BUILDINGS, STRUCTURES AND USES

- 1 For new buildings, structures or uses, the required number of off-street loading spaces shall be required in accordance with the regulations set out in Section 6.10.
- 2 For additions to existing buildings or structures, or for changes or additions to an existing use, the number of off-street loading spaces required shall be determined by applying the regulations in Section 6.10 to those changes or additions.
- 3 Where off-street loading spaces in excess of Bylaw requirements are provided, their location, design and operation shall comply with the requirements of this Bylaw.

9 DEVELOPMENT AND MAINTENANCE STANDARDS FOR OFF-STREET LOADING

- 1 Each off-street loading space shall have clear minimum dimensions of 3 m in width, 9 m in depth, and 4 m in height.
- 2 Each off-street loading area shall be clearly marked for the use of loading only.
- 3 All loading spaces shall be provided with adequate curbs to retain all vehicles within the permitted loading areas and to ensure that fences, walls, hedges, landscaped areas, and buildings will be protected.
- 4 Each loading space shall be surfaced with an asphalt, concrete or similar pavement so as to provide a durable, dust-free surface and shall be so graded and drained as to properly dispose of all surface water.
- 5 Off-street loading areas shall be arranged so as to ensure the safe and convenient circulation of vehicles to and from the public road system, and not be arranged so as to require the backing out of vehicles onto a public road.
- 6 Off-street loading spaces shall be accessed off a lane or maneuvering aisle not less than 6 m wide.
- 7 Any lighting used to illuminate any loading area shall be so arranged that all direct rays of light are reflected upon the loading area and not on any adjoining premises.

11 REQUIREMENTS FOR SCREENING

- 1 Unless otherwise indicated, the owner of a parcel shall provide one or more of the forms of screening or landscaping as prescribed in Table 5 to mask or separate all of the

following uses and conditions:

- (1) Waste disposal and treatment sites from all other uses;
- (2) Storage yards from all other uses, except waste disposal and treatment sites;
- (3) Parking area from all other uses, except waste disposal and treatment sites and outdoor storage areas;
- (4) Residential uses from Agricultural Land Reserve properties;
- (5) Industrial uses from Provincial and Arterial Highways;
- (6) Industrial uses from commercial, institutional, and residential uses; and,
- (7) Commercial uses from residential uses.

PART 7 SUBDIVISION REGULATIONS

1 PROHIBITION

No person shall subdivide land in the Municipality contrary to the provisions of this Bylaw.

2 PRELIMINARY LAYOUT CONSIDERATION

- 1 An applicant for subdivision approval may, before preparing a plan of subdivision to be submitted for approval request the Approving Officer to give preliminary consideration to and comment on a proposed subdivision layout.
- 2 An application for a preliminary layout consideration shall be accompanied by sketch plans of the proposal, sufficient information to enable the Approving Officer to determine whether or not the proposed subdivision will meet the requirements of this Bylaw and any other enactment, and a fee as established in the Fees and Charges Bylaw.
- 3 An applicant shall, when directed to do so by the Approving Officer, post on the lot that is subject to the application, in a location specified by the Approving Officer, a sign provided by the Municipality, and shall pay to the Municipality the prescribed fee.
- 4 Preliminary comments on any proposed subdivision shall not be considered as acceptance by the Municipality or its Approving Officer of anything except the general layout of the proposed subdivision, and a statement of minimum conditions which would apply should an application for subdivision be made. Preliminary comments on any proposed subdivision shall not be construed as approval of the proposed subdivision for Land Title Office registration or any other purpose.
- 5 Preliminary comments on any proposed subdivision may be amended or added to at any time by the Approving Officer.

3 APPLICATION FOR SUBDIVISION APPROVAL AND FEE

- 1 Application for subdivision approval shall be submitted on the form prescribed for that purpose from time to time by the Approving Officer.
- 2 An applicant for subdivision approval must state on the application the use to which the applicant intends to put the land following its subdivision.
- 3 An applicant for subdivision approval shall submit with the application for approval an application fee, plus an administrative fee in the amount established in the Fees and Charges Bylaw.

4 LOT AREA REGULATIONS

- 1 No land shall be subdivided having a lot frontage or lot area less than the minimum

prescribed in the Zoning Regulations or in this Part.

- 2 Despite 7.4.1 above, the Approving Officer may approve a plan of subdivision which creates a parcel or parcels which do not comply with the minimum lot area or lot frontage requirements where a lot is subdivided to accommodate municipal, public, or public utility use, other than offices, storage, or works yard.
- 3 The minimum area of a parcel in an RE zone that may be subdivided to provide a residence for a relative pursuant to Section 514 of the Local Government Act is 8.0 hectares.
- 4 Where a parcel of land is proposed for subdivision as a panhandle lot, the calculation of the lot area shall not include the area of the access strip, unless the width of the panhandle access meets or exceeds the lot frontage requirement.
- 5 Where land is in the A-1 zone and in the Agricultural Land Reserve, the minimum lot area of 4.0 hectares shall apply when the land is:
 - (1) excluded from the ALR; or
 - (2) approved for subdivision within the ALR pursuant to the Agricultural Land Commission Act, Regulations thereto, or Orders of the Commission; or
 - (3) exempted by the Agricultural Land Commission Act, Regulations thereto, or Orders of the Commission.
- 6 Despite any minimum or average lot size requirement specified under the provisions of a General Residential zone, the minimum lot size requirements for any property that is not serviced by municipal sanitary sewer is 2.0 ha.

5 LOT DIMENSIONS AND CONFIGURATION

- 1 Where the lot frontage of a proposed residential lot entirely abuts the turnaround portion of a cul-de-sac, the lot frontage may be reduced to 10 m subject to the lot width meeting or exceeding the minimum lot frontage requirement. This provision does not apply to panhandle lots.
- 2 The minimum lot frontage and width of an access strip serving a panhandle lot is 6.0 m, except that where the access strip is straight, 45 m or less in length, and has clear site lines from end to end, the lot frontage and width may be reduced to 4.5 m.
- 3 Despite Subsection 7.5.2 above, where an access strip is not straight but is 45 m or less in length, the Approving Officer may accept a reduced lot frontage and width, subject to it being demonstrated that the site lines and vehicle clearances meet or exceed engineering standards that would serve a handi-dart bus and ambulance.
- 4 Despite Subsection 7.5.2 above, the lot frontage and width of an access strip may be reduced to 3.5 m where two adjacent panhandle lots have abutting access strips and a reciprocal access agreement is registered on title, which shall include the District as a party for the sole purpose of ensuring the agreement is not modified or discharged

without the approval of the District.

- 5 The lot width of any proposed panhandle lot shall meet or exceed the lot frontage requirement for a standard lot in the same zone.
- 6 The creation of any new lot lying within two or more zones is prohibited.
- 7 The creation of any new hooked lot, or a lot divided into two or more portions by a highway or other legal parcel is prohibited.
- 8 Every new fee simple lot created must be provided with highway access, or for bare land strata lots, access to a highway by way of a bare land access route.

6 HIGHWAY DIMENSIONS, LOCATIONS, ALIGNMENT AND GRADIENT

A highway proposed to be dedicated by a plan of subdivision shall not be shown on the plan, dedicated, laid out or constructed unless the dimensions, location, alignment and gradient meet the requirements for highways prescribed in the Works and Services General Provisions (Schedule 2).

7 COST OF WORKS AND SERVICES

The works and services required by this Bylaw shall be provided, located and constructed at the expense of the owner of the land proposed to be subdivided or developed.

8 WORKS AND SERVICES STANDARDS

- 1 All works and services required in this Part shall be provided, located and constructed in accordance with the applicable standards prescribed in the Works and Services General Provisions (Schedule 2).
- 2 The works and services outlined in the following table in respect of the applicable zoning districts shall be provided in all subdivisions and developments of land in each zoning district specified, and in the interpretation of the Table a 'major highway' is a major municipal route or arterial highway as shown on Schedule C of the Official Community Plan.
- 3 Despite Subsection 7.8.2, the Approving Officer may approve a boundary adjustment subdivision without requiring the works and services outlined in this Section provided that there would no increase in the density or intensity of use beyond what was permitted before the boundary adjustment.
- 4 Despite Subsection 7.8.3, if an application for subdivision is received within 5 years of a boundary adjustment subdivision to which the exemption under 7.8.3 was applied, the works and services outlined in this Section shall apply to all lots which were subject of the boundary adjustment subdivision.

TABLE 5	
Zoning Category	Works/Services to be Provided
Agriculture and Estate Residential Zones: (A-1, A-3, A-5, A-6, A-7 RE-1, RE-2, RE-3, RE-4, RE-5, RE-6)	Paved streets, storm water ditches. On major highways only: curbs, gutters and catch basins, sidewalks and street lighting. Proven Supply of Potable Water. Underground wiring for lots in the RE-6 zone only
Commercial and Institutional Zones: (C-1, CD-2, CD-3, CD-4, CD-5, CD-8, CD-9, C-2, C-3, C-3A, C-4, C-5, C-6, C-6A, C-8, CR-1; P-1, P-1A, P-1C, P-1F, P-2)	Paved streets with curbs, gutters, catch basins, street lights, storm drains, water mains, fire hydrants, sanitary sewers. Sidewalks on major highways. Underground wiring. Street and Traffic signs.
Industrial Zones: (I-1, I-2) (CD-1)	Paved streets with curbs, gutters, catch basins, streetlights, storm drains, water mains, fire hydrants, sanitary sewers. Sidewalks on major highways. Underground wiring. Street and Traffic signs.
Residential Zones: (R-1, RCH, R-1M, R-1S, R-1Z, R-1XS, R-2, CD-7, R-2S, RM-1, RM-1G, RM-2, RM-3, RM-4, RM-5, RP-1, RP-2, CD-10)	Paved streets with curbs, gutters and catch basins, street lighting, water main, fire hydrants, storm drains, sanitary sewers. Sidewalks only on major highways. Underground wiring where the existing service must be extended to serve the subdivision. Street and Traffic signs.

- 5 Where the municipality operates a community water or sewer system, or a drainage collection or disposal system, the water distribution, fire hydrant, sewage collection and drainage collection systems, where provided in the subdivision, shall be connected by mains to the system of the Municipality in accordance with the standards prescribed in the Works and Services General Provisions (Schedule 2).
- 6 Notwithstanding the provisions of Subsection 7.8.5, where the community water system is not available to service the subdivision, each lot to be created by the subdivision shall have a proven supply of potable water that meets or exceeds the Guidelines for Canadian Drinking Water Quality in the amount of 2000 litres per day. Written certification from a professional Engineer or Hydrogeologist shall be provided confirming the water quality and that any proposed groundwater extraction would not adversely affect the water quality or quantity for any groundwater wells that may be impacted as determined by the professional.
- 7 If the written certification required in Subsection 7.8.6 cannot be provided, the Approving Officer may nonetheless approve a subdivision under the following:
 - (1) The Professional Engineer or Hydrogeologist has identified treatment options that, if provided as part of development of the land, would result in a water supply meeting water quality standards,
 - (2) The Professional Engineer or Hydrogeologist has identified storage options that,

if provided as part of development of the land, would result in a water capacity meeting the minimum requirements for domestic and firefighting purposes, and

(3) The applicant agrees to register a covenant on title restricting development of the lands unless specified steps are taken to ensure the proposed subdivision would be provided with potable water meeting the minimum water quantity and quality requirements.

- 8 Notwithstanding Subsections 7.8.1 and 2, road works and services on that portion of West Saanich Road lying between the southerly limit of the right of way of Wallace Drive and the north-westerly corner of the parcel having a civic address of 1230 Verdier Avenue on the east side of West Saanich Road and the northerly limit of the parcel having a civic address of 7226 West Saanich Road on the west side of West Saanich Road, shall be provided, located and constructed in accordance with Schedule 3 in cases where Schedule 3 provides specifications or standards that are in addition to or different from those in Table 5 or Schedule 2.
- 9 Notwithstanding Sections 8.1 and 2, road works and services shall be provided, located and constructed in accordance with Schedule 4 in cases where Schedule 4 provides specifications or standards that are in addition to or different from those in Table 5 or Schedule 2:
- (1) on the internal public roads and lanes to be constructed and dedicated during the subdivision and development of those parcels having a civic address of 7874 and 7940 Lochside Drive (the former Marigold Nursery lands).
- 10 Unless otherwise serviced by municipal sanitary sewer or community sewage system, each lot proposed to be created by subdivision must be demonstrated by the applicant to contain an area or areas of sufficient size and appropriate characteristics to satisfy the requirements of the Sewage Disposal Regulation under the Health Act for conventional septic tank or package treatment plant systems for the intended use of the lot.

9 SECURITY

A security to be deposited under Section 509 of the Local Government Act shall be in cash, certified cheque, or an irrevocable letter of credit. The security shall be in the amount of 125 percent of the cost of engineering, construction, and installation of the works and services required to be installed as estimated by the Municipal Engineer.

10 CONNECTION OF WORKS AND SERVICES

- 1 Where an owner of land proposed to be subdivided or developed constructs the works and services required by this Bylaw to serve a proposed subdivision or development the owner shall not connect such works or services to any of the sewage, drainage, electrical or water works of the Municipality and the Municipality shall not accept the works constructed and installed by the owner or any part thereof, until
- (1) the Municipal Engineer has accepted the works and services;

- (2) the proposed subdivision or development has been approved by the Approving Officer or the Building Inspector, as the case may be;
- (3) the owner has deposited with the Municipal Engineer "as built" drawings of such works and services prepared and sealed by a Professional Engineer; and,
- (4) the owner has deposited the approved subdivision plan in the Land Title Office and has registered in the Land Title Office statutory rights-of-way in favor of the Municipality in respect of all works and services on private property, in a form satisfactory to the Municipal Engineer.

11 OWNERSHIP OF WORKS AND SERVICES

All works and services constructed under this Bylaw shall upon their acceptance by the Municipality become vested in the Municipality, free and clear of all encumbrances.

12 WORKS AND SERVICES REQUIRED ADJACENT TO A SUBDIVISION OR DEVELOPMENT

- 1 An owner of land who applies for subdivision approval or the issue of a building permit shall be required to provide the works and services that are required to be provided under Section 7.8 of this Bylaw up to the centre line of any highway immediately adjacent to the land being subdivided or developed as a condition of approval.
- 2 The rate of interest applied to latecomer charges in respect of excess or extended works and services shall be the prime rate of the Canadian Imperial Bank of Commerce on the date of completion of the works or services, plus one percent.
- 3 If in the opinion of the Municipal Engineer the installation of works and services in accordance with this Bylaw in respect of the subdivision or development of a particular site would not be in accordance with sound civil engineering principles because such works and services are best installed on an area-wide basis, the Municipal Engineer may require the owner to make a cash payment to the Municipality in the amount reasonably estimated by the Municipal Engineer as the cost of design, construction and installation of the works and services, in lieu of designing, constructing and installing them. The Municipality shall hold such payments in reserve to be expended on the design, construction and installation of the works and services on an area-wide basis at such time as may reasonably be determined by the Municipal Engineer.

PART 8 SIGN REGULATIONS

1 INTERPRETATION OF SIGN REGULATIONS

1 In this Part:

"Address Sign" means a permanent structure displaying the name or civic address of the premises on which it is located.

"Animated Sign" means a sign which uses change of lighting or moving parts to depict action or create special effects or a pictorial scene but does not include a digital sign displaying only time and temperature.

"Awning" means a rigid frame to which is attached a flexible fabric forming a canopy, hood, or roof mounted onto a building-face, no part of which extends above the lowest eave or any other part or a roof, the clearance between grade level and the lowest part of which is not less than 2.2 metres, and no part of which extends more than 0.6 metres into a required front, side or rear yard.

"Awning Sign" means a sign which is attached to the face of an awning.

"Billboard or Finger Sign" means a sign which directs attention to a business, commodity, service, or entertainment conducted, sold or offered at a location other than the lot on which the sign is located.

"Canopy" means a fixed non-retractable roof structure over service station or marina fuel pumps, or other open and exposed installations.

"Canopy Sign" means a sign attached to or forming part of a canopy but does not include a marquee or roof sign.

"Eave" means the projecting lower edge of a roof overhanging a building face.

"Fascia Sign" means a sign which does not project more than 15 centimetres from the building face to which it is attached.

"Free Standing Sign" means a sign not exceeding 6.1 m in height which is self-supporting, or is supported by a structure independent of any building or other structure.

"Home Identification Sign" means a sign identifying the residence by occupant or number.

"Home Occupation Sign" means a sign identifying a permitted home occupation use.

"Marquee" means any fixed structure projecting from the face of building for the purpose of affording protection to the public from the weather, but does not include an eave.

"Marquee Sign" means any sign, affixed approximately at right angles to a building face and wholly beneath a marquee, with a minimum clearance of 2.2 m from finished grade.

"Political Sign" means a sign erected to promote the voting at an election in favour of a particular candidate or in support of a particular cause.

"Portable Sign" means a sign designed to be moved from place to place without involving any structural or support changes, including any vehicle whose primary function is advertising.

"Projecting Sign" means any sign other than an Awning Sign which projects more than 150 millimetres which it is attached.

"Real Estate Sign" means a sign indicating that the property on which it is located is for sale or rent or has been sold or rented.

"Roadside Stand" means a stand on farm premises from which agricultural produce is sold.

"Road Side Stand Sign" means a sign on a Roadside Stand.

"Rotating Sign" means a sign moving about its own axis.

"Sandwich Sign" means a self-supporting sign which can be moved by a person from place to place, usually consisting of two rigid sheets of wood, metal or like material, hinged at the top and set loosely upon the ground.

"Sign" means a letter, numeral, work, picture or attention drawing device, excluding traffic control devices, displayed out of doors in such manner as to be visible from a highway.

"Sign Area" means the total area within which the face of a sign could be completely contained. The area of a free standing sign shall be exclusive of any supporting structure but shall include the sum of all faces visible to the public.

"Site Sign" means an unlighted sign not exceeding a total area of 0.28 m² which is located on a parcel and relates to or identifies a use on that parcel.

"Temporary Sign" means a sign put in place for a limited period of time but in no case exceeding 12 months advertising the construction, lease, subdivision, design, or sale of the property at which the sign is located.

"Traffic Control Device" means a stop sign, signal, line, barrier, traffic control signal, traffic control, flashing signal or device placed or erected under the provisions of the *Motor Vehicle Act* or the Streets and Traffic Regulation Bylaw of the Municipality for the purpose of regulation and control of traffic.

"Unlighted" means not illuminated either by an internal source of light or indirectly from an external source of artificial light.

"Wall Sign" means any sign painted directly upon a wall or other part of any building or structure.

"Window Sign" means a sign affixed to the inside of a window in view of the general public.

- 2 Sign areas specified in this Bylaw are references to the area of the entire face or faces of a sign displaying a message of any kind, including any frame or trim surrounding the message area, but excluding any supporting structure not displaying any portion of the message.

2 SIGN PROHIBITIONS

- 1 No person shall erect, construct or place any of the following signs:
 - (1) any sign projecting above the lowest part of a roof;
 - (2) projecting signs;
 - (3) rotating signs;
 - (4) animated signs;
 - (5) wall signs;
 - (6) portable signs, other than sandwich signs; and,
 - (7) bill board or finger signs, excepting signs supplied and installed by the municipality.
- 2 No sign shall be constructed or placed in a position which is likely to block, obstruct, or interfere with traffic of any kind, including pedestrians, or with traffic control devices.
- 3 No sign shall be placed on or over any real property owned by the Municipality or a street unless the approval of Council is first obtained and Council may as a condition of such approval require the applicant to enter into a licence agreement with the Municipality.
- 4 No person shall stop, stand or park a vehicle on any lot for the principal purpose of displaying a sign attached to or forming part of the vehicle, and no person shall permit any such vehicle to remain on any lot of which he is the owner or occupier.

3 SIGN PERMITS

- 1 Notwithstanding paragraphs (2) through (7) inclusive, the following signs may be erected or placed on any lot within the Municipality and without first obtaining a permit:
 - (1) unlighted real estate signs of not more than 1.49 m², provided that no such sign shall be located within 3 metres of an interior side lot line, nor within 1.5 meters of a lot line abutting a street;
 - (2) one unlighted temporary sign of not more than 3 m², displaying the name of the contractors or consultants engaged in the construction, alteration, or demolition of a building or structure, provided that such signs are removed prior to final inspection of such building or structure under the Building Bylaw of the Municipality. No such sign shall be located within 3 metres of an interior side lot line, nor within 1.5 metres of a lot line abutting a street;
 - (3) one unlighted sign of not more than 0.14 m² indicating either ENTRANCE or EXIT, at either the entrance or the exit of an off-street parking area, such sign to be located on the lot;
 - (4) signs on private land directed toward the prevention of trespassing, of not more than 0.06 m²;
 - (5) window signs which do not exceed fifteen percent of the total window area;

- (6) site signs and signs displaying only a civic address;
 - (7) political signs provided that they are removed no later than seven days after the day of the polling to which they relate;
 - (8) signs or notices exhibited by the authority of the Government of Canada, the Province of B.C. or any municipal authority;
 - (9) seasonal agriculture produce signs, no greater than 0.557 m² erected for a period of six months or less on the lot on which the advertised produce is grown;
 - (10) unlighted roadside stand signs conforming to the following requirements:
 - a. all signs must be physically attached to the stand; and
 - b. no sign or combination of signs shall have an area exceeding 3.0 m²; and,
 - (11) sandwich signs.
- 2 No person shall erect, place, construct, relocate or alter any sign in the Municipality without first obtaining a permit.
- 3 Every applicant for a sign permit shall submit to the Inspector an application in writing accompanied by plans and specifications showing:
- (1) the overall dimensions of the sign;
 - (2) the sign area;
 - (3) the dimensions of the supporting structure for the sign;
 - (4) the overall height of the sign and the clearance beneath it, both measured from finished grade;
 - (5) the proposed location of the sign in relation to the boundaries of the lot upon which the sign is to be located; and,
 - (6) the estimated market value of the sign.
- 4 No sign permit shall be issued for any sign in a development permit area except in accordance with a development permit.
- 5 The permit application and the permit shall be in the form prescribed from time to time by the Building Inspector.
- 6 The Building Inspector may grant and issue sign permits.
- 7 The Building Inspector shall issue a sign permit together with any building permit that is required in accordance with the Building Bylaw for the building or structure on which the sign is to be located.

4 SIGN REGULATIONS

- 1 Within zones A-1, A-3, A-5, A-6 and A-7 no sign except the following signs shall be permitted:
- (1) where a farmer's market store is licensed, and permitted by the B.C. Agricultural Land Commission;
 - a. fascia signs occupying up to the full length of the building face, facing upon the parking area or street frontage only; and
 - b. a single freestanding sign provided that:

- i. if the lot is a corner lot and access to the building is from both frontage streets, two freestanding signs are permitted;
 - ii. sign area is limited to 0.2 m² to each 0.3 metres of lot frontage; and
 - iii. Freestanding signs are located a minimum distance of 3 metres from any lot lines not abutting a street, 7.62 metres from any lot line abutting residentially zoned property, and so that no part of the sign projects beyond the property line;
 - (2) sandwich signs;
 - (3) on a lot on which is located a licensed veterinary hospital or clinic, a fascia sign located on the face of the building and not exceeding 2.4 metres in length, or one freestanding sign not exceeding 1.2 m² located at least 1.5 metres from any lot line, and with a maximum height 3.65 metres, either of which may be illuminated; and,
 - (4) home occupation signs.
- 2 Within zones RE-1, RE-2, RE-3, RE-4, RE-5 and RE-6, no sign except the following signs shall be permitted:
- (1) address signs; and,
 - (2) home occupation signs.
- 3 Within zones R-1, RCH, R-1, R-1M, R-1S, R-1Z, R-1XS, R-2, CD-7, R-2S, and CD-10, no sign except the following signs shall be permitted:
- (1) home occupation signs; and,
 - (2) one unlighted temporary sign per lot not exceeding 0.6 m².
- 4 Within zones RM-1, RM-1G, RP-1, RP-2, RM-2, RM-3, RM-4 and RM-5 no sign except the following signs shall be permitted:
- (1) address signs;
 - (2) one unlighted temporary sign with a sign area not exceeding 0.6 m², at each unit for sale, rent or lease; and,
 - (3) home occupation signs.
- 5 Within zones C-1, CD-2, CD-3, C-2, CD-4, CD-5, CD-8, CD-9, C-3 and C-3A no sign except the following signs shall be permitted:
- (1) fascia signs and freestanding signs complying with Subparagraph 8.4.1(1);
 - (2) marquee signs;
 - (3) sandwich signs; and,
 - (4) awning signs.
- 6 Within zones C-4, no sign except the following signs shall be permitted:
- (1) canopy signs over pump islands, not extending above the canopy, nor hanging below the bottom edge of the canopy;
 - (2) freestanding signs complying with Subparagraph 8.4.1(1)(b);
 - (3) marquee signs;
 - (4) sandwich signs; and,
 - (5) awning signs.
- 7 Within zone C-5, no sign except the following signs shall be permitted:

- (1) fascia signs conforming to Subparagraph 8.4.1(1)(a);
 - (2) freestanding signs conforming to Subparagraph 8.4.1(1)(b);
 - (3) marquee signs;
 - (4) sandwich signs; and
 - (5) awning signs.
- 8 Within zone C-6, C-6A, W1 and W2 no sign except the following signs shall be permitted:
- (1) fascia signs on waterfront side of commercial building, with a minimum height above lowest floor level of 1.8 metres;
 - (2) canopy signs over fuelling pumps, conforming to 8.1.6(1).
 - (3) one freestanding sign with a maximum area of 1 m² with a minimum clearance of 2.43 metres, and maximum height of 3.65 metres;
 - (4) sandwich signs; and,
 - (5) awning signs.
- 9 Within zone C-8, no sign except the following signs shall be permitted:
- (1) address signs;
 - (2) fascia signs on front face of building conforming to Subparagraph 8.4.1(1)(a);
 - (3) freestanding signs conforming to Subparagraph 8.4.1(1)(b);
 - (4) marquee signs;
 - (5) sandwich signs; and,
 - (6) awning signs.
- 10 Within zone P-1, P-1A and P-1C, no sign except the following signs shall be permitted:
- (1) a bulletin board not exceeding 1.2 m² located within the front yard;
 - (2) address signs; and,
 - (3) awning signs.
- 11 Within zone P-2 and W-3, no sign except the following signs shall be permitted:
- (1) address signs;
 - (2) fascia signs on the entrance face of buildings; and,
 - (3) awning signs.
- 12 Within zones I-1, I-2 and CD-1, no sign except the following signs shall be permitted:
- (1) fascia signs conforming to Subparagraph 8.4.1(1)(a);
 - (2) freestanding signs conforming to Subparagraph 8.4.1(1)(b);
 - (3) sandwich signs; and,
 - (4) awning signs.

5 REQUIREMENTS FOR PARTICULAR SIGNS

- 1 Home occupation signs must not exceed dimensions of 0.1 metres by 0.6 metres, must not be illuminated, and must be located not less than 1.5 metres from any lot line.
- 2 Awning signs must not extend above the lowest eave or any other part of a roof, must not extend more than 0.6 metres into a required yard, and must have a clearance above finished grade of at least 2.2 metres. No part of the sign may project more than 50 mm

from the surface of the awning and no part of the sign area may exceed 0.6 metres in vertical dimension.

- 3 Fascia signs must not exceed 0.6 metres in vertical dimension if the message is displayed horizontally, or 0.6 metres in horizontal dimension if the message is displayed vertically.
- 4 Sandwich signs may be displayed during business hours only and shall be removed from the sidewalk or other public area at the close of business each day. The sign area must not exceed 1.5 m² and the total sign area 3.0 m², and only one such sign is permitted per business except where specifically permitted by this Bylaw.
- 5 Address signs must not exceed a height of 1.2 m nor a width of 1.5 m, and must be constructed of solid masonry or be erected on masonry piers. Such signs may be indirectly illuminated and the lettering must be engraved or carved in heavy timber or metal.
